

Opposite Animals

Animals rely on the weather as much as we do. How do you think they'd react if the weather were suddenly the opposite of what it is in their normal environment?

Draw your favorite animal in an environment completely different to the one it lives in! If it lives in warm weather, place it in cold weather. If it lives in the water, what would it look like on land?

Q uestion & A nswer

WHAT ADAPTATIONS DOES YOUR ANIMAL HAVE THAT ALLOW IT TO LIVE IN THE ENVIRONMENT IT NORMALLY LIVES IN? ADAPTATIONS CAN INCLUDE WINGS, STRONG SENSE OF SMELL, BURROWING CLAWS, THICK SKIN, ETC.

DID YOU GIVE YOUR ANIMAL ANY NEW ADAPTATIONS TO SURVIVE IN THE OPPOSITE ENVIRONMENT? MAYBE NEW FUR FOR AN ANIMAL FROM THE DESERT OR LEGS FOR AN ANIMAL THAT NORMALLY LIVES IN THE WATER.

WHAT DO YOU THINK WOULD HAPPEN TO YOUR ANIMAL IF IT TRIED TO LIVE IN A COMPLETELY DIFFERENT ENVIRONMENT?
